

Terwilliger Fire Danger Tree Equipment

IGE

A variety of equipment is needed to perform the mission of removing danger trees on the Terwilliger Fire. Some equipment is specialized and hard to find, others are fairly common and typically readily available. The following is the Government Estimate for the needed equipment:

Harvester: \$250-300/hour

Forwarder: \$180-250/hour

Rubber Tire Skidder: \$125-150/hour

Tracked Skidder: \$125-150/hour

Shovel or Log Loader (Tracked or Rubber Tire): \$150-200/hour

Danglehead Processor: \$175-225/hour

Transport (Lowboy): \$125-150/hour

Hand Falling Module (2 fellers): \$100-150/hour

This Government Estimate is based off of pricing provided by BPA contractors of similar work as well as work performed on previous contracts of similar kind within the last year.

Government Estimate performed by Steven Orange, Resource Advisor on Terwilliger Fire on 9/14/18
